

Communication

Date	15 March 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction Using Machine Learning
Maximum Marks	1 Mark

Communication Plan:

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp Group, Google Meet	All 5 Team Members	Discuss daily tasks, assign responsibilities, and review progress.
2	Progress Update	Weekly	Google Meet, GitHub	All Team Members, Project Guide	Review completed work, demonstrate progress, and receive guidance.
3	Issue / Bug Discussion	As Needed	WhatsApp, GitHub Issues, Google Meet	Concerned Team Members	Identify, discuss, and resolve coding bugs, integration issues, and technical challenges.
4	Stakeholder Review	Bi-Weekly	Google Meet / In-Person Meeting	Team Members, Project Guide	Present project milestones, collect feedback, and discuss improvements.
5	Final Demo Rehearsal	Once	College Lab / Google Meet	Entire Team	Practice the final project presentation, assign speaking roles, and verify system functionality.
6	Documentation Review	Before Final Submission	Google Docs, Microsoft Word	All Team Members	Review project documentation, ensure consistency, and finalize the report before submission.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty coordinating meetings due to different team members' class schedules and availability.	Created a WhatsApp group for instant communication and scheduled weekly Google Meet sessions at mutually convenient times.
2	Integration issues between the Flask web application and the machine learning model during development.	Team members collaborated to debug the code, reviewed the integration process together, and tested the application after each fix using GitHub for version control.
3	Delays in completing documentation and preparing the final project report.	Divided the documentation into sections, assigned responsibilities to each team member, conducted a final review, and merged all contributions before submission.
