

Customer Journey Map

Date	15 June 2026
Team ID	xxxxxxx
Project Name	Credit Card Approval Prediction Using Machine Learning
Maximum Marks	2 Marks

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Fills out the credit card application form. - Uploads required documents. - Submits the application.	- Waits while the bank verifies the application. - Responds if additional information is requested. - Tracks the application status.	- Receives the approval or rejection notification. - Reviews the decision. - Activates the credit card if approved.
Touchpoint <i>What part of the service do they interact with?</i>	- Bank website/mobile app. - Online application form. - Document upload portal.	- Application status portal. - Email/SMS notifications. - Customer support.	- Approval/Rejection notification. - Bank website/app. - Customer service.
Customer Thought <i>What is the customer thinking?</i>	"Is my information correct?" "Will I qualify?" "I hope the process is simple."	"How long will this take?" "Will I be asked for more documents?" "I hope my application gets approved."	"How long will this take?" "Will I be asked for more documents?" "I hope my application gets approved."
Customer Feeling <i>What is the customer feeling?</i>	- Hopeful. - Curious. - Slightly nervous.	- Anxious. - Impatient. - Uncertain.	- Happy and relieved if approved. - Disappointed if rejected. - Excited to use the card if approved.

Process Ownership <i>Who is in the lead on this?</i>	• Customer & Bank Application Portal	• Bank Credit Officer & ML Prediction System	• Bank Decision System & Customer Support
Opportunities <i>How can we improve this stage?</i>	• Simplify the application form. • Enable automatic document validation. • Provide clear instructions.	• Use machine learning for faster and more accurate evaluation. • Provide real-time status updates. • Reduce manual verification time.	• Explain approval/rejection decisions clearly. • Notify customers instantly. • Offer guidance for improving eligibility if rejected.
